

Our Holiday Wish List

Gift Cards can help make our wishes come true!

We appreciate your continued commitment to our mission of caring for families who have a critically ill child being treated in a Nashville hospital. During this time of uncertainty, it is more important than ever that we continue to serve families in a safe manner. Unfortunately, this means that the holidays are going to look a lot different for us this year. This year we are asking that gifts for families be made in the form of GIFT CARDS. We know this isn't the most fun way to give, but in order to make sure that we continue to keep everything in the House sanitized and risk-free of any contaminants, GIFT CARDS are the best choice for this holiday season.

We have put together some ideas for different increments of Gift Cards and what that could mean for families.

Whether you like to dream 'big' for the holidays or would like to help out in a small but meaningful way, here is a sampling of wish list needs families would enjoy this holiday season.

For larger GIFT CARD amounts, families could purchase items such as baby equipment (strollers, car seats, pack & plays, cribs, baby swings, etc.). And for older children, larger GIFT CARD amounts could be used to purchase items such as bikes (including scooters, tricycles, etc.) and outdoor play/sport equipment (tents, basketball hoops, outdoor playgrounds, etc.)

For smaller GIFT CARD amounts, families could purchase items such as smaller toys (Barbies, Legos, etc.), board games, clothing items for newborns and children, and even gift sets for moms and dads!

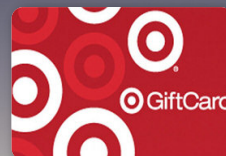

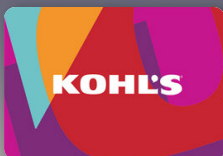

By clicking on GIFT CARDS with your cursor, you will be linked directly to the store's website for your purchase.

With the purchase of a \$50 Amazon gift card, a family could buy anything from A to Z!

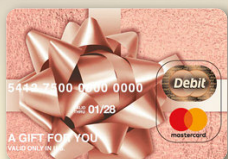

With the purchase of a \$25 Bed, Bath, & Beyond or a Kohl's gift card, a family could buy their newborn baby bottles, rattles, or pacifiers, or new clothing for the entire family!

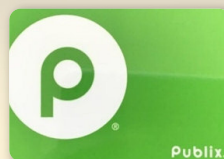

With the purchase of a \$250 Target or Walmart gift card, a family could purchase a car seat and stroller to take home their newborn baby.

With the purchase of a \$100 Visa/Mastercard gift card, a family can buy their child the new Barbie Dream House or a new Star Wars Lego Set.

With the purchase of any amount on a Kroger, Publix, or any food gift card, a family could buy groceries or meals once they return home.

Every Gift is Special, and a GIFT CARD in Any Amount is Greatly Appreciated!

All of these stores have websites where GIFT CARDS can be used to make online purchases, where they can be shipped directly to the family making the holidays just a little simpler for them this year.

PLEASE NOTE:

Due to health conditions beyond our control, we are temporarily Pausing Donations on these donated gift Items for this Holiday Season.

THANK YOU FOR UNDERSTANDING.
